April 20, 2020

## **BISD's Response to the Governor's Order of School Closure for Remainder of Academic Year:**

The Brownsville Independent School District has been mandated by the Governor of Texas to continue distance learning and has closed in-person instruction for the remainder of the 2019-2020 academic year.

BISD will continue to work towards the students' education via distance learning as well as online and printed instructional packets. In the coming weeks, teachers may be going to their classrooms for video instruction, to perform administrative duties, and to prepare for the coming school year. BISD appreciates all the hard work and countless hours that students and teachers have invested in the new online instructional platforms.

The district will also continue its meal distribution program with a drive-thru service as it has already served over 225,000 meals to our community's children. BISD is excited and currently developing logistical plans to graduate the senior class of 2020. We will keep all 2020 seniors and their parents informed of the specific details, which are being developed, to insure safe graduation ceremonies in accordance with the Governor's Orders.
