

Attention: BISD Employees

As you are aware, the seasonal and H1N1 flu serum has been in high demand and short supply this year. Mutual Assurance Administrators (MAA) recommends that you obtain your flu shot from your primary physician or at a local pharmacy that offers this service. BISD employees should have the provider submit the bill for either the seasonal flu or H1N1 shot serum and injection, one not both, to MAA for 100% payment. All local health providers are being notified by MAA.

For questions, call Diana Morales, the local MAA Representative, at 698-0112.
